15 October 1979

MEMORANDUM FOR: Deputy Director for Science & Technology  
Director of Public Affairs

SA/DCI

SA/DCI

FROM: Director of Central Intelligence

SUBJECT: Possible Domestic Trips

1. I had a nice discussion with Walter A. Fallon, Chairman of Eastman-Kodak. We talked specifically about the possibility of my coming to Rochester and seeing what they are doing. Let's look at that. Is there anything else we could do in that area?

2. I also reopened the promise I had made to Harry Gray of United Technologies to come to Hartford sometime for one of his monthly meetings when he gets all of his top people in from overseas and elsewhere. This is always during the third week of the month. It would be for a luncheon, I believe. Perhaps we could combine these two.
